

HUMBUG SQUAD TEAM OVERVIEW

TEAM DESCRIPTION

Humbug Squad is a very weird team. They look like they have a bunch of mechanical good player, that plays out of role/dont communicate. They also never use the same lineup making thing harder to scout. Their worst player is for sure their support. She is still struggle a lot with mechaniscs and calls , and she is trying to master god that are very hard to play , example Yemoja. Their Adc is pretty good but he would mst likely play off role during our game. We should put pressure on the duo since i think we would be able to win that lane. Their confor pick are Yemoja , Hou YI and Sol. Their Adc is very cocky and would go for 1v1 even when behind, and he thinks he can take any fight. This shoud be use on our advantage. They dont really have any strategy in picks bans and etc.. There is not much to say about the team since there is no many vods available or games with all the team togheter
