5NIPE TEAM OVERVIEW

TEAM DESCRIPTION

5nipe is a pretty good team , where their worst player are the solo and support and best player jugnler and mid. They like to play aggressive pick in early game , and they struggle a lot from behind. If behind they start losing all their buffs and not warding them, and they completely lose track of the enemy team player, causing them to fall even more behind. The lane that suffer more the early pressure is duo. When behind they always try to counter invade the solo, but this shouldn't be a problem if burpy is there. They also seems unsure when making calls, and they sometimes go in late, causing them to lose team fights. Another problem I noticed when they are struggling, is that they are unsure on how to pick in fight and they tend to spam their ults and relics. If ahead they love to invade the enemy jungle as soon as back harpies spawn. Banning wise , they really love to ban Midlaner , they ban at least 2 per game. Mostly all the time they go : 1. MID (Morgan/Tiamat) 2. ADC (Artemis), 3. Jungler for their first 3 bans and 1. Support 2. ADC 3. MID for their first 3 picks. Some of their player , especially mid and support, are one trick with Baba and Fafnir, and support struggle a lot if he is not the one to engage.

TUHUNUTIN (ADC) OVERVIEW

PLAYER DESCRIPTION

Cedric Scouting:

Tuhnutin . They are kinda weird to scout cause they don't play carry to often. They always start leather cowl for that early life steal. Their top picks are Anhur, Apollo and Izanami so look out for that early aggression.

Davide Scouting:

He struggle if he is not ahead, and struggle under pressure in lane. He loves to play good like Danza and Anhur which are very strong if ahead but quiet bad from behind. He seems like he doesnt fit the new meta, and dont play gods like Artemis and Rama. He probably hate Artemis since she get banned every game

RANTANPLAN95 (SUPP) OVERVIEW

PLAYER DESCRIPTION

Cedric Scouting

Rantanplan95 they seem to be a fan of a physical support with their mains being Fenrir and Horus. When picking a guardian they look for a more teamfight stage pick rather than early game aggression. Here their top picks are Ganesha and Khepri and Sylvanus with the occasional Ymir sprinkled in

Davide Scouting

He really struggle if he cant pick his Fafnir. He loves to be aggressive and inititate the fight, and struggle in a more peel based role as support.He seems not great at dogging abilities and when under pressure he tend to not use ability to safe his or his team mates life.Imo he is the worst plyaer on the team , and when not comfortable he can be exposable

# N1GHTR1D3RR (MID) OVERVIEW

PLAYER DESCRIPTION

Cedric Scouting

N1ghtr1d3rr . Their best gods are all big team fight gods who can stay safe during laning with cc or an escape. Baba Yaga, Baron Samedi, Ra and Eset are their top choices. They are the second highest rated player in 5nipes so our flexbans and early picks should focus around hurting them and the next person I'm talking about.

Davide Scouting

He is one of the strongest player on the team. He loves to play baba and struggle if he is not allowed too, He seems to like early aggression , but seems to miss warding his camps or buffs. Also he struggle to juke ability out and usually just walk straight to the tower instead of trying to juke the abilities

NUDISTI666 (JUNGLER) OVERVIEW

PLAYER DESCRIPTION

Cedric Scouting

Nudisti666. Hey seem to be very flexible when picking their god. Notable is their very high average kills per match on certain gods like Tsukoyomi, Ao Kuang and Awilix. We should look into banning at least 2 assassins weaken their pool.

Davide Scouting

Strongest player on the team no doubt. Very good at ganking and rotating but he seems to miss call some of his ganks. Really strong in early games and loves to invade as soon as the back harpies of the enemy jungle spawn.

CATMONGO (SOLO) OVERVIEW

PLAYER DESCRIPTION

Cedric Scouting
Catmongo . Their favourite gods are SWK, Herc, Baron Samedi and Cthulu. Notable "weird" or more unconventional picks are Chang'e and Fafnir. Antiheal will most likely be your friend against this player.

Davide Scouting
Probably he is the worst player on the team , but the fact that he plays solo save him. Some of his building choice are weird and he seems to not really understand is matchups. For example he didnt build any antiheal against anubis solo, or he tried to 1v1 anubis solo at half health when anubis had his ult up. He seems also to do some weird backing that cause him to lose quiet a lot of farm. Its a little too brave even from behind and he loves to play Guardians or Odin in the solo lane.
